

FREE AT-1000Pro Chip Upgrade

All owners of the AT-1000Pro are eligible for the free firmware chip upgrade. The new upgrade includes updated tuning algorithms for faster and better tuning and the addition of Peak and Average modes. The new User Manual that outlines the new features will be available in the manuals section of our web site.

To receive your Free Firmware Chip Upgrade, fill out this form and mail or e-mail to LDG. We will send you a pre-programmed processor to replace the old one. You simply take the lid off, remove the old chip, and place the new chip in the socket. Discard the old chip or keep it for a backup.

You can also simply provide all information requested below in an e-mail to ldg@ldgelectronics.com. Requests to any other e-mail address will not be processed. Please allow 2 to 3 weeks for delivery to North America and 4 to 6 week outside of North America.
